PROFESSIONAL SUMMARY

I am an aspiring Web Developer and Bookkeeping Professional with experience in administrative support, IT support, system development, and business operations. I enjoy solving problems, creating web applications, automating business processes, and continuously learning new technologies. My goal is to help businesses improve efficiency through technology while expanding my expertise in software development and accounting systems.

PROFESSIONAL EXPERIENCE

Administrative Assistant — [COMPANY NAME] [START – END]
[LOCATION]

- Delivered day-to-day administrative and clerical support to keep operations running smoothly.
- Prepared, formatted, and maintained business documents, reports, and correspondence.
- Organized physical and digital filing systems for fast, reliable retrieval.
- Produced accurate reports and summaries using Microsoft Office (Word, Excel, PowerPoint).

IT Support — [COMPANY NAME] [START – END]
[LOCATION]

- Diagnosed and resolved computer, software, and peripheral issues to minimize downtime.
- Set up, configured, and maintained printers, workstations, and office hardware.
- Troubleshoot network connectivity problems and supported day-to-day user needs.
- Monitored CCTV systems and performed routine hardware maintenance and preventive checks.

Secretary — [COMPANY NAME] [START – END]
[LOCATION]

- Managed calendars, appointments, and scheduling for the office/management.
- Prepared and encoded documents, memos, and official correspondence.
- Coordinated between departments and external contacts to keep tasks on track.
- Maintained accurate records through consistent data encoding.

Billing Officer — [COMPANY NAME] [START – END]
[LOCATION]

- Prepared and issued accurate billing statements and invoices.
- Maintained up-to-date customer records and account information.
- Monitored payments, followed up on balances, and reconciled discrepancies.
- Generated billing and collection reports for management review.

Treasurer Assistant — [COMPANY NAME] [START – END]
[LOCATION]

- Handled cash transactions accurately and securely.
- Maintained financial records and supporting documentation.
- Managed collections and posted receipts in a timely manner.
- Performed basic bookkeeping tasks and assisted with financial reconciliations.

CERTIFICATIONS

- [CERTIFICATION TITLE] — [ISSUING ORGANIZATION] ([MONTH YEAR])
- [CERTIFICATION TITLE] — [ISSUING ORGANIZATION] ([MONTH YEAR])

ACHIEVEMENTS

- Designed and delivered multiple full-stack business systems (transport, inventory, POS, and payroll) from concept to deployment.
- Automated manual payroll and reporting processes using Google Apps Script, reducing processing time and human error.
- Bridged administrative and technical roles — improving business efficiency through custom digital tools.
- [ADD A MEASURABLE ACHIEVEMENT, e.g. "Reduced monthly billing errors by X%"]
